June 4th, 2020 - the text explains how to improve learning curves using the earned value method and through the design of thinking systems it also offers a chapter that reviews the learning curves literature review and future research directions inside the learning curve opening up the black box of the learning curve'

'learning curve

June 7th, 2020 - the term learning curve is used in two main ways where the same task is repeated in a series of trials or where a body of knowledge is learned over time hermann ebbinghaus first described the learning curve in 1885 in the field of the psychology of learning although the name did not e into use until 1903 in 1936

**theodore paul wright
described the effect of
learning on production costs'**
