May 2nd, 2018 - The finite length**

dipole antenna is discussed The currents on the structure are considered and the input impedance is plotted versus size The concept of a resonant dipole antenna is discussed'

'Microwave transmission Wikipedia May 3rd, 2018 - Microwave transmission is the transmission of information or energy by microwave radio waves Although an experimental 64 km 40 mile microwave telecommunication link across the English Channel was demonstrated in 1931 the development of radar in World War II provided the technology for practical exploitation of microwave communication'

'Friis Equation aka Friis Transmission Formula

May 6th, 2018 - On this page we introduce one of the most fundamental equations in antenna theory the Friis Transmission Equation The Friis Transmission Equation is used to calculate the power received from one antenna with gain G_1 when transmitted from another antenna with gain G_2 separated by a distance R and operating at frequency f or wavelength'

'Cosmic microwave background electromagnetic radiation

May 5th, 2018 - Isotropy in the cosmic background Apart from the small fluctuations discussed above one part in 100 000 the observed cosmic microwave background radiation exhibits a high degree of isotropy a zeroth order fact that presents both satisfaction and difficulty for a comprehensive theory' 'ANTENNA BASICS electronics tutorials

May 5th, 2018 - Antennas to quote a friend are one of life s eternal mysteries All I m totally certain of is that any antenna is better than no antenna and the antenna should preferably erected as high and be as long as is possible or desirable' 'Radio Electronics Pages ePanorama net Links
